ADDITIONAL INFORMATION

- We WILL NOT collect for a mare without a signed breeding contract on file. No exceptions.
- It is up to the breeder when booking the mare to inform the breeding farm about all the above information. We are not responsible for any missed collections due to miscommunications.
- If you are using email or text to place an order, we must have all account information (shipping address, FedEx/UPS account number, credit card, etc.) on file. We do not allow the use of our Fed Ex account, so it is up to the breeder to set up their own account.
- In your email/text, please include the Mare/Stallion and how you plan to obtain semen.
Example: Much Madness/Sweet Lou. Pick-up. If you do not receive a confirmation by 7 am the day you are ordering, please call to ensure that your message was received. We cannot be responsible for technology failures.
- All stallions are limited to one breeding per heat cycle. Requests for a second breeding within one heat cycle are subject to approval. No second breeding requests are guaranteed until after the stallion has been collected and we can comfortably cover all first breeding requests.
